SICMAT

**SICMAT : COOPERATION AGREEMENT STIPULATED WITH THE AMERICAN
PROCESS EQUIPMENT COMPANY “PECo”**

Pianezza, July, 1st, 2009 – Sicmat S.p.A., which has recently celebrated the 75th anniversary of its activity in the field of machine tools and has more than 50 years experience in the field of gear finishing machines, announces the achievement of a collaboration agreement with the Process Equipment Company (PECo) of Tipp City, Ohio – US.

The agreement, susceptible of possible further developments, regards the sale and service of gear measurement machines “PECo” in some European countries as well as in India.

SICMAT & PECo can reciprocally benefit from this collaboration, which realizes an effective synergy.

SICMAT will have the opportunity to extend the application of its wide know-how in the field of toothed wheels to the gear measuring one. PECo will have on its turn the opportunity to exploit SICMAT sale & service net, consolidated and appreciated in many countries worldwide.

At next EMO Fair in Milan (5 to 10 October 2009) SICMAT is presenting the new honing machine for gears GRONO 250 & the new shaving machine with synchronized axes RASO TP 250. PECo is presenting the gear measuring machine PECo ND300, with its most recent innovations.
